

# It's all about CHOICE!

## Do I have to make a choice?

No. If you don't choose, you keep your supplier and rate option. A new price will be assigned to you before June.

## What is the Choice Gas Program?

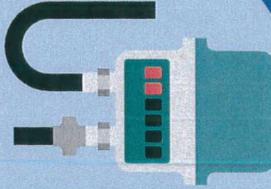

The Nebraska Choice Gas Program gives you the power to shop for a natural gas supplier and pricing option that fits your needs. The Selection Period has expanded this year, giving you five weeks to make your choice.

## When is the 2021 Selection Period?

March 18 to April 22

## If I change suppliers, will my gas bill come from a different utility?

No matter who you choose, your bill will always come from Black Hills Energy. They are your local distributor and administrator of the Choice Gas program.

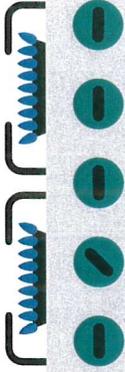

## What are the rate options?

Suppliers offer a variety of pricing options. The most common are:

- **Fixed rate** – Your price for each term used stays the same all year.
- **Market rate** – Your price for each term used changes monthly based on the market price of gas.
- **Fixed monthly bill** – Your entire gas bill stays the same every month.

There are many pricing options out there. Don't be afraid to ask questions!

## ACE's role as a gas supplier

ACE was created by Nebraska communities to benefit all Choice Gas customers. Our goals included low gas prices through competition, a voice for all consumers and a resource of funds for community betterment. More than twenty years later, we're still neighbors helping neighbors.

## Choose ACE, keep money in Nebraska!

ACE's revenue return program has distributed more than **\$3 million** back to Nebraska communities since 1998. By choosing ACE, you get a low rate and keep your dollars local. It's a win-win!
